### Description of Day 2:

The morning of Day 2 was dedicated to study visits. Participants had the opportunity to visit two work integration social enterprises (WISEs) based in Brussels with the aim of integrating vulnerable people into the labour market: Recyclart Fabrik and Cannelle.

Recyclart is a WISE working in the field of carpentry, metal construction and infrastructure. This place designs and produces customers' requests. It is a local and sustainable craft industry. And as for Cannelle, this organisation is a restaurant which also proposes a catering service for public authorities, associations, enterprises, etc. Following the visit, the participants had the opportunity to have lunch at the Pavillon Cannelle.

### Description of Day 3:

The day started with an identification of a good practice by each country participating in the project. This identification of good practices was possible following the 4 previous social missions. Furthermore, a presentation of the participatory budget was made by Renovas, a non-profit association commissioned by the municipality of Schaerbeek to take care of this initiative and to develop the neighbourhoods of the municipality through social inclusion given that groups considered as vulnerable are present there.

A brainstorming session on the elaboration of social action plans led by FCAT has been followed by the attendees. This session contributed to the following which required participants to develop a shared guideline of social action plans in their community. Their inputs will be used for the deliverable D2.3 Compendium of the guidelines for the development of the social action plans, providing the basis for WP3's development.
